534

MEDIUM GRADE FLATBACK TAPE

IPG®'s 534 is considered by many as the "industry standard" due to its dependability. It offers a strong secure seal on a variety of surfaces. 534 has an excellent balance between machine and cross direction tensile and tear strength in order to reduce failures in the field, specifically medium duty splicing, tabbing and core starting applications.

MADE WITH 60% RENEWABLE RAW MATERIALS!

FEATURES & BENEFITS

- Now made with 2.5X the adhesion to backing strength for a superior seal in shingling applications
- Aggressive pressure-sensitive adhesive that was specifically designed to stick to a variety of substrates
- Enhanced quick stick properties to ensure a secure and quick seal
- Lower unwinds for ease of application
- Increased shear strength for demanding applications
- Cradle to Cradle Certified® Bronze

PRODUCT ATTRIBUTES

PRODUCT	534
BACKING	Kraft flatback
ADHESIVE	Solvent Cast Natural/ Synthetic Rubber
THICKNESS	7.5 mils
TENSILE STRENGTH	42 lbs/in
ADHESION TO STEEL	60 oz/in
OPERATING TEMPERATURES	+32°F ~ +200°F (0°C ~ +93°C)
COLOR	Brown

PRODUCT INFORMATION

PRODUCT CODE	METRIC SIZE	IMPERIAL SIZE	ROLLS/CASE
71676	48mm x 54.8m	1.88" x 60yd	24
71693	48mm x 439m	1.88" x 480yd	6
84464	72mm x 54.8m	2.83" x 60yd	16
77930	72mm x 439m	2.83" x 480yd	4
84466	96mm x 54.8m	3.77" x 60yd	12

PRODUCT APPLICATIONS

- Carton sealing
- Packaging
- Silk screening
- Picture framing
- Beaming/leasing
- Splicing
- Tabbings

MARKETS

- Building and Construction
- Electrical
- Moving and Storage
- General Manufacturing
- E-commerce
- Transportation
