

# — ***RSA 2626-TB-WAT***

*High Speed Water-Activated Tape Case Sealer*

- Uses curbside recyclable water-activated tape
- Processes up to 24 cases/min
- Operates 3.5" min height & 26" max width case sizes
- Double wipe down for most secure seal
- Low tape & no tape indicator light
- 2.5-gallon water tank can activate up to five (5) tape rolls
- Foot switch to operate pass through mode when no taping is necessary
- Uses large tape rolls (up to 4500 ft/1317.6 m) to reduce the frequency of tape roll changes\*
- Fits in the same space as most top and bottom belt machines in the market
